Dear Coach,

Enclosed you will find a copy of the Number One Volleyball Camp brochure. Note that we have one session, including one week for middle school age players.

Even though over ninety-five percent of our campers come as a team, we have a combination team/individual camp concept in that we encourage players to come as a team with their coach. However, we do accept a limited number of players and teams whose coach cannot attend with them.

Many of our campers have received scholarships as a result of experience and exposure gained from our camp.

We wanted to get information to you early about our camp. Hopefully, you will consider our camp to help develop your players. We honestly feel our campers receive better individual fundamental instruction than at any other fundamental camp. We also offer team competition at all levels. However, our camp fees are less per player than most camps. We limit our camp size so that instruction is not diluted or we lose sight of individuals. Also, our location is more suited to total concentration on volleyball without distractions that are found at some camps. This year, we expect to have a great startup session.

Here are a few details about the facilities and other advantages of our camp:

- a) Improvements: Crudup Hall at Brenau University is air-conditioned and houses 150 campers. The college gym floor will be refinished two weeks prior to camp. Additional air-conditioned dorms are also available. The college gym has been renovated and is now air conditioned, and the cafeteria has been renovated and now has an excellent new food service.
- b) Camp awards will be given on last day of camp prior to games. Camp will conclude after morning or afternoon games, with all teams and players participating. Any team traveling a long distance may make arrangements to stay an extra night if necessary. Call for cost if interested.
- c) Coaches are not required to officiate or work unless they have requested to be a member of the staff. Fundamentals will be taught first day afternoon and evening; and second day morning and afternoon. Each session will be over 2 hours. Each team will play 7-12 games. There are several regulation courts available for games and instruction that are close to the college campus.
- d) Consistency among staff: Many staff members have been with our camp 10-15 years. We also have several outstanding young coaches who have been on our staff for 1-5 years.

Please return the enclosed form if you have any interest in our camp. Please feel free to call me for any additional information.

Sincerely,

**RON ROACH**
